E-mail : kunal.dasgupta@utoronto.ca

Website : www.economics.utoronto.ca/kdasgupta/teaching.htm

Office hours : Monday 4:30-5:30 p.m.

Teaching assistant : Grigorios Spanos (grigorios.spanos@utoronto.ca)

Office hours : TBA

Objective

This course is an introduction to open economy macroeconomics and international finance. The core objective of the course is to develop macroeconomic models of open economies that can be applied towards gaining an understanding of recent events such as US current account deficit, currency crisis in developing countries, the vulnerability of the Euro and the sub-prime mortgage crisis.

Prerequisites and Exclusions

Check out the *Document on Prerequisites* posted on Portal under COURSE INFORMATION.

Textbook

The main textbook for the course is Robert C. Feenstra and Alan M. Taylor's, *International Macroeconomics* (FT), Worth Publishers, second edition (ISBN : 1-4292-4103-9). This book is available for purchase at the UofT bookstore. It is also available at the Short-Term Loan Service at the Robarts Library (3rd Floor) in very limited numbers. FT is available in both bound, as well as, loose leaf versions. You can also use the first edition of FT if you want. An e-book version of the book, which is compatible for Iphone, Ipad and Android tablets, is available at the following [website](#). For those of you who are also taking ECO364H1S taught by me, a better option might be to purchase Feenstra and Taylor's *International Economics*. From time to time,

I shall post articles from other sources like The Economist, New York Times, The Wall Street Journal, etc.

Marking scheme

There will be 2 on-line quizzes, each worth 5 percent of the total grade. The mid-term, to be held during regular lecture hours, will be worth 30 percent of the total grade. 60 percent of the grade will be based on performance in the Final exam.

Important dates

9th January	First lecture
5th February	Quiz 1 due
13th February	Midterm
20th-24th February	Reading Week
11th March	Last day to drop course
25th March	Quiz 2 due
2nd April	Last lecture

Administrative details

1. (Missing quizzes or exams): If you miss a quiz, you lose all the points. If you miss the midterm for any reason, you must send me an e-mail *before* the exam. You must also meet me in my office afterwards and explain the reason for your absence (and provide supporting documents). If you miss the midterm for health reasons, then you should bring a medical note to the meeting (see below for acceptable medical notes). In the event that I deem you eligible for accommodation (which is in no way guaranteed), you will be allowed to take a make-up test, which will be held within one week of the original test. If you fail to inform me of your absence before the test, you will get a 0 on the midterm. If you fail to meet me to explain the cause for your absence, you will get a 0 on the midterm. If you miss the make-up test, you will also get a 0 on the midterm.
2. (Medical notes): The only medical note that will be accepted is the University of Toronto Student Medical Certificate (see the Registration Handbook & Timetable for a copy of the certificate). The medical note must be *original* (not scanned, copied, or e-mailed). The doctor's OHIP registration number must be provided on the note. *Retroactive notes will not be accepted* (i.e., notes saying that “student claims to have been sick on the day of the test”).

3. (Academic misconduct): *I shall not tolerate any form of academic misconduct.* Punishment for such an offense could range from failing the course to suspension or dismissal from the university. Please review the University's Code of Behavior on Academic Matters regarding what constitutes an academic offense. You should also take a look at the website of the [Academic Success Center](#).
4. (Appealing an exam): Appeals regarding the grading of a test must be submitted to me or to the TA in writing, within one week of returning the graded work. If I find the complaint justified, I (and not the TA) shall re-grade *the entire exam*. Since I am a less lenient grader than the TA, this could lead to your grade going up or down. So, think twice before you appeal your grades.
5. (E-mail policy): I shall try my best to respond to e-mail within 48 hours on a weekday, 72 hours on a weekend. When you send me an e-mail, always write the course number on the Subject line, i.e., ECO365. Every day I receive numerous e-mails, and if the subject line is not informative, I might inadvertently delete your e-mail. Please use e-mails for appointments, administrative or urgent matters. Note, however, that I shall not reply to e-mails requesting information that can be found on the website or the syllabus; so you should check those places first. For clarification regarding course material, please see me or the TA during office hours.
6. (Attendance): Attendance is not compulsory. Keep in mind, however, that the textbook and the lectures are not substitutes but complements.
7. (Accessibility needs): The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the classroom or course materials, please contact Accessibility Services as soon as possible: disability.services@utoronto.ca or www.accessibility.utoronto.ca/

Course outline

1. Introduction

- FT Chapter 1

2. Exchange Rate and the Foreign Exchange Market

- FT Chapter 2

3. Exchange Rate and the Long Run

- FT Chapter 3
