Administrative Matters

Prerequisites: ECO 200Y/204/206Y and MAT 133Y/123&124H/135&136H/137Y/157Y; time and energy for reading and thinking about the course, good English language skills – this is a verbal course.

Marking Scheme: mid-term test 40%, short in-class and take-home exercises 5%, final exam 55%. **Term test October 17**. Short exercises – 2, each worth 5%, **best 1 out of 2 count**, done at end of class or due at start of class, in which case 50% late penalty up to 1 hour, 100% penalty after 1 hour, **no make-up**. Absence from the test will only be excused for serious illness, notified to me no later than the day after the test, with a note from a doctor that I deem sufficient. Workforce absenteeism averages 3%. An excused absence leads to a make-up term test. An unexcused absence leads to a zero.

Office hours: Max Gluskin House 323, Tuesday, 3-4 PM, Thursday, 5-6 PM. Ask questions about the course in these office hours after studying relevant readings. See this video for motivation: <u>http://www.youtube.com/watch?v=576TsBiJpm4</u>.

Web support: this is a **Blackboard course**. Blackboard will have announcements, readings, class notes and a discussion board. Please submit general questions to the discussion board. Your classmates may answer them; if not, I will try to answer within two working days. Everyone can benefit from the question and answers. Access the course website at http://portal.utoronto.ca and log in using your UTORid and password. Once in, look for the My Courses module, where you will find the link to the ECO 320 course website and your other Blackboard-based courses.

Email policy: Please address questions about the course ideas, materials, substance and procedure to the discussion board. For personal issues only, email me at: dewees@chass.utoronto.ca. Use your UTORmail account and write ECO 320 and your name in the subject line. I will try to respond within two working days.

Finding Journals:

The reading list includes some journal articles or working papers. The journals are available to UofT students through the UofT library on JSTOR, <u>http://www.jstor.org</u>. A link is provided below to the particular journal. Browse for the issue, click on the article.

For off-campus access to journals, go to:

http://myaccess.library.utoronto.ca/login?url=http://www.jstor.org/search .

You will be asked to provide your library barcode and a PIN, which should be the last 4 digits of your student number, unless you have changed it. Once you log in, you can access all JSTOR articles. Use the search function to search for the name of the article. The article you want may not be at the top of the results, so check the article with the exact title as listed in the outline. Once you find the article, click on it, and view it online or download it as a pdf file.

2. Course Goals
