Tests cover material since the previous test/midterm but the Midterm covers Micro from the beginning of the course and the final exam covers the whole course. Students who miss any exam must email me a scanned copy of a medical/funeral document within one week of the exam to write a make-up on the whole course from **10–11:30AM on August 7 (BA2165)**. The final examination is divided into multiple-choice questions, worth 50% of the exam, and analytic/diagrammatic/calculation/explanation questions, worth 50% of the exam. Every student in ECO100Y must answer the multiple-choice questions, which cover core material common to all sections, and must also answer other questions specific to their section.
