Tests cover material since the previous test/midterm but the Midterm covers Micro from the beginning of the course and the final exam covers the whole course. Students who miss any exam must email me a scanned copy of a medical/funeral document within one week of the exam to write a make-up on the whole course from **10–11:30AM on August 5**.

The final examination is divided into multiple-choice questions, worth 50% of the exam, and analytic/diagrammatic/calculation/explanation questions, worth 50% of the exam. Every student in ECO100Y must answer the multiple-choice questions, which cover core material common to all sections, and must also answer other questions specific to their section.

**LECTURES NOTES/PROBLEM SETS/SAMPLE EXAMS**

I will sell a package of Lecture Notes, Problem Sets, and Practice Exams with solutions at cost (\$10) in class. These problem sets are not graded but provide exercises necessary to clarify the economic models presented in the lectures and tested on exams.

**TUTORIALS/OFFICE HOURS (TAs):**

Teaching Assistants provide tutorials every week to clarify the problem sets and also hold office hours for individual consultation on problems.
