The midterm and final exams are a combination of short-answer and essay type questions with some choice in questions answered. Students who miss the midterm exam due to a documented absence (e.g., doctor's note) must write the make-up exam, which will occur in the second week of January. Please note that there is no choice on the make-up exam.

The 4 page essay (4 double spaced pages with normal margins and 12 point type, not including bibliography) will analyze a chapter by one of our authors and a critic of that author specified by me. The 10 page essay will be your choice of a topic on one of our 5 authors utilizing some reading from the author and 3 secondary sources that I will specify. I will only accept late essays during lectures or my office hours and there are no extensions. The penalty for lateness is 1%/business day for the first week and 2%/business day subsequently. Late essays are not eligible for remarking. All students must hand in two copies of the essays. You must also be prepared to give me a digital copy for submission to Turnitin upon my request.

Presentation marks are given for a two 1 page written review (12 point, double-spaced, normal margins) and presentations (2 to 5 minute) per term on designated pages from an author during one seminar period for a potential 5 marks and **the right to get one participation mark for a comment or question per seminar** (which take place in the first hour of class time beginning on September 19) up to a maximum of 10 marks for 10 seminars (note that there are 11 seminars in the winter term). Students will sign up for their presentation days per term in the first class of each term. If you miss your presentation, you must email me, provide documentation of a legitimate reason, submit your original presentation, and do a replacement presentation that I will assign.
