

**ECONOMICS 2908: INDUSTRIAL ORGANIZATION and
COMPETITION POLICY**

**(Fall Semester: Monday's 11:10 am to 1:00 pm,
Room 157 Rotman; no class Oct 8, make up Dec 6)**

Professor: Frank Mathewson

Office/Phone: Room 8074, 95 St. George Street
Phone: (416) 978 – 6127
e-mail: frankm@chass.utoronto.ca

Office Hours: By Appointment

Evaluation: There will be a final exam (date to be determined) that will determine your grade in the course. Previous exams are posted on the course web site. Some problem sets will be distributed during the semester. While these will not be graded, answer templates will be posted.

Other courses: **ECO 2900F** (Fall Semester; Tuesday 11 – 1): offered by Professor Yao Lao.
ECO 2901S (Winter Semester; Friday 9 – 11); offered by Professor Victor Aguirregabiria.
ECO 2404 (Winter Semester; Tuesday 9 – 11); offered by Professor Eduardo Souza Rodrigues.
RSM 3011 (Winter Semester; TBA); offered by Professor Heski Bar Isaac
Bus Econ/IO Workshop: students are encouraged to attend this workshop that typically meets at Rotman on Monday's from 4:10 to 5:30 pm. Check seminar schedule for dates, room location, speakers and papers.

Course Content: The field of industrial organization is applied microeconomics/price theory concerned with the function of markets and the behavior of firms in these markets. In this course the focus is on two primary questions: (i) How do we explain observed behavior, prices or contractual practices by firms operating in markets that are not perfectly competitive? (ii) What is the role of government intervention in affecting market structure, the behavior of firms, and the efficient operation of markets? Recent developments in IO are both theoretical and empirical. This IO course stresses a basic understanding of the theory, including extensions and modern developments and applications of the theory; selected empirical applications will be presented in ECO 2404S, ECO 2900 and ECO 2901S.
