#### **Course Description**

This is an advanced macro course for PhD students aimed at providing an overview of frontier topics in macroeconomics, showcasing areas of expertise within the macro group in the economics department.

### Prerequisites

ECO2021H and ECO2031H

## Evaluation

The evaluation will be based on an original and detailed research-paper proposal that each student will submit by the end of the course. The proposal should be related to some of the topics covered in the course. The proposal should develop a motivation, a well-specified research question and a detailed methodological procedure to be applied such as model, data, calibration strategy, experiments, among others. More detailed instructions will be given in class. The deadline for the research proposal is **January 6, 2020**.
