**Definitions:**

St. George Course Name	St. George		UTM		UTSC	
Course Number	Exclusion	Q- Equivalent	Exclusion	Q-Equivalent	Exclusion	Q-Equivalent

**Exclusion:** For a given UTSG ECO course, an exclusion is defined as a course with sufficient overlap of material (irrespective of level) that we would not let an undergraduate student obtain credit for both the exclusion and the UTSG course. There is no presumption of equivalence.

**Q-Equivalent:** For a given UTSG course, and instructor having taught a "Q-Equivalent" course will be deemed to have prior experience teaching a similar course to the UTSG one. This includes an allowance for level, as well as coverage. In other words, previous experience in teaching a "Q-Equivalent" course would be useful preparation for teaching a given St. George ECO course.
